

Accounts Payable

Online invoice storage, data entry, and bill pay with integrations to your accounting software

Sourcery is AP Automation catered to the foodservice industry

You probably didn't enter the restaurant business with dreams of paperwork, invoices, accounts payable, and other clerical tasks. But you know they have to be done.

An often-cited study revealed that 60 percent of restaurants fail within the first year. We're not saying that to scare you, but it's really critical to be a good businessperson, not just a good restaurateur.

It means you need to keep an eye on everything - deliveries, weight, invoices, etc. And when you find a mistake, make sure you speak up. Let your vendors know, and make sure the correct action is taken. In a perfect world, no one would screw up, and no one would deliberately try to shortchange you and your business. Unfortunately, that's not the world we live in.

So how can you make sure nothing slips through? Find a way to keep track of it. For some people, printing everything and putting it into an old fashioned filing cabinet does the trick. But in today's world, that seems to us like an unnecessary hassle. Most people much prefer keeping everything organized electronically.

Why restaurants and accountants love Sourcery

- **Find and store all your invoices online in one place**
- **Print, download, or access all your invoices from any device**
- **Pay any invoices with one click**
- **All transactions are tracked by date, invoice, vendor, and approver for detailed record-keeping**
- **Integrates with most solutions including Quickbooks, Sage, Xero, Netsuite, Intacct, Dynamics GP**

What is Sourcery?

With Sourcery's foodservice expertise, easy-to-use technology, and unmatched customer support, professional food businesses trust Sourcery to make their back-of-the-houses more efficient. We want to empower our customers, companies in food and hospitality, with more accurate and modern accounts payable.

Invoice Storage

Say goodbye to paper piles and file cabinets. Imagine pulling up an old invoice with a simple search query or quickly finding all of the invoices associated with a particular vendor over a particular date range. Sourcery translates all invoices into digital data to provide a simple solution to view your payables.

Bill Pay

Pay vendors with a single click. Imagine taking care of payables from any web device with a web connection: desktop, laptop, smartphone, tablet, you name it. Free yourself to work while you're in the store, on the road, or at the office.

Categorization

Sourcery creates a customized chart of accounts with both numerical code and naming assignments based on your organization.

Reports

Read real-time spend so that you can find outliers, track high volume purchases, and make educated decisions on future purchases. Reduce the time it takes to find information that matters to you.

Customer Service

Your dedicated Sourcery account manager's works closely with you as an extension of your team. They'll look after your operations, and keep you posted on any changes that they notice.

The Benefits of Sourcery

Sourcery is a good way to make sure you're aware of everything happening with your business. We can catch discrepancies between your order and what was delivered, or a charge that shouldn't exist.

Lower Costs of AP Processing

Save money by outsourcing your invoice data entry. Eliminate errors and slash time in half. Stop overpaying your employees to perform process-driven tasks and empower them to get back to doing more impactful duties.

Accessible Anywhere

Easily scan your invoices into Sourcery, in bulk or one at a time. All invoices will be kept on file and easily searchable by you. Implementing Sourcery allows your organization to grow without having to add additional W2's, or potentially a full A/P department. By utilizing Sourcery, your staff is able to view actionable data within hours, instead of weeks or potentially months.

Improve Your Teams Roles and Rules

Your team shouldn't be spending their time calling for additional details and duplicating efforts. Give your team the technology to scale and flourish. The Sourcery solution is flexible and can be customized for different workflows and processes tailored to you.

Extend Your AP Team

Let go of the lowest margin, most labor intensive part of your business: data entry and paper wrangling. Sourcery will help you get back to doing what you do best and what makes you most profitable.
